HTTP & Web Servers

Showcase

What happens when we leave prep to the last minute

- I messed up and was preempted from my time to prepare
- I also underestimated the complexity of the topic
- So for the rest of the “talk” I’m going to showcase some examples of some of this all in production.

HTTP Log Examples

Apache Configuration examples

- content

CGI Examples

- content

WSGI Examples

- content

Next week is a demo

RSVP's are required

(either in the Discord or through the form on the website)
